

Specifications

PopUp WiFi Enterprise

QUICK FACTS

- Uses both Telstra and Optus 4G/LTE-Advanced networks [automatically switches between networks for maximum Internet availability].
- CAPTIVATE compatible.
- Crowd counting and presence analytics compatible.
- 24/7 local live support.

DIMENSIONS

- 130 mm high
- 173 mm wide
- 173 mm deep
- Weighs 1100 grams

ROUTER

- Multi-provider enabled [Telstra & Optus]
- Up to 100Mbps throughput
- Static IP address capable
- Cloud-managed enterprise-grade 4G router
- Medium-gain antennas for high 4G performance
- VLAN capable

POWER

- 240V AC to 12V DC compact plugpack provided
- Low power consumption [approx. 15 watts]

ACCESS POINT

- 30 concurrent users
- CAPTIVATE compatible
- 2x2 MIMO
- 5GHz and 2.4GHz [5GHz recommended]
- Complies with all main WiFi security standards
- Web content filtering/application filtering
- Cloud-managed enterprise-grade 802.11ac access point

BUILD

- External Ethernet [LAN] port for connecting a network switch, printer, or other Ethernet-enabled device
- White power indicator light
- Power input jack [12V DC]
- Compact, fanless design
